

CREATIVITY

God creates alone what passes;
we make God and all the other
Verities of an eternal nature.

God creates alone what passes,
ever-turning, none alike,
each matchless form a moving stream of life.

God creates alone what passes,
our demotics not it's wonders,
bodies running on like song of waters.

God creates alone what passes,
quicksilver flashings under sunstar:
one course run, the difference forever.

God creates alone what passes;
we arrange dried Everlastings.
